

AUDIO ENGINEERING

Students who successfully complete a B.A. in Audio Engineering will be able to:

1. Demonstrate application of the basic software and hardware tools used in audio production.
2. Produce a product that reflects professional level production value and standards.
3. Demonstrate ability to produce a capstone CD album with cover art and liner notes.
4. Demonstrate proficiency in operating professional recording studio console.
5. Demonstrate ability to create and produce a Promo DVD in 2.0 stereo and 5.1 Surround.
